## ⚙️ Skills

---

- ✓ Programming Languages: C, C++, Java, Python
- ✓ Web Development: HTML, CSS, Javascript, PHP, SQL
- ✓ Tools: Visual Studio Code, Github, Figma, Power BI, Tableau
- ✓ Data Structures
- ✓ Problem Solving
- ✓ Soft Skills: Project Management, Teamwork

## 👤 Professional Profile

---

As a second-year student studying computer science and engineering, I'm interested in front-end development. Creating seamless user experiences with HTML, CSS, Javascript, and PHP is something I'm really passionate about. Being proficient with technologies like Visual Studio Code, GitHub, and Figma and having knowledge of programming languages like C, C++, and Java, my goal is to add both creativity and usefulness to every project.

## 🎓 Education

---

- 🎓 Bachelor of Technology (2022-2026)
- 🎓 Computer Science and Engineering (CGPA: 9.79)
- 🎓 Charotar University of Science and Technology, Anand, Gujarat

## 🔗 Projects

---

### 🔗 Career Counselling Analyzer (Github Link)

The "Career Counselling Analyzer" is a comprehensive web-based platform designed to assist faculty counselors in analyzing their batch of students based on various aspects of their academics. The primary objective of the project is to provide a systematic and data-driven approach to career counseling, enabling counselors to understand the strengths and preferences of students.
